

## **Guidance on attending your appointment**

- In the 14 days leading up to your appointment, if you or anybody that you have been in contact with either have any COVID-19 symptoms or have been diagnosed with COVID-19, please let us know as soon as possible so that we can reschedule the appointment.
- Please complete all forms that would have been sent to your mobile number as a text message link before you come to the appointment.
- Please come at the time of your appointment as the waiting area and the toilet facilities are not in use and entry into the practice will be at the time of your appointment.
- Please attend alone, unless you require a carer. One parent can accompany children under eighteen.
- Please wear a face covering when entering the practice.
- Please bring minimal belongings as anything brought will be placed into a disinfected box in the surgery.
- Where possible please make payments over the phone to reduce contact at Reception, prior to attending the practice.

Thank you for your understanding. Keep safe.
